

ABDUL LATIF SAYAL

GIS & Remote Sensing Analyst | Environmental Sciences Graduate

Hyderabad, Sindh, Pakistan | +92 306 3228040 | Latifsiyal965@gmail.com
linkedin.com/in/abdul-latif-078a31243 | Passport No: CC5105041

PROFESSIONAL SUMMARY

Environmental Sciences graduate with hands on experience in GIS, remote sensing, and field-based environmental data collection. Skilled in spatial analysis, satellite imagery interpretation, biomass estimation, and carbon accounting using ArcGIS Pro, QGIS, and Google Earth Engine. Proven track record supporting national and international initiatives (UN FAO, UNOPS, Sindh Forest Department) through field surveys, soil sampling, and geospatial reporting. Strong Python/R data skills, research writing ability, and experience coordinating field teams and focus group discussions.

CORE SKILLS

- GIS & Remote Sensing Analysis: ArcGIS, ArcGIS Pro, QGIS, Google Earth Engine (GEE)
- Programming & Data Analysis: Python, R (data cleaning, statistical analysis, visualization)
- Field Techniques: Soil sampling, biomass estimation, carbon accounting, Laser Geo Vertex, Alpine Quest GPS tracking
- Research & Reporting: Academic and technical report writing, statistical interpretation, scientific publication support
- Project & Team Skills: Project/initiative management, field team coordination, focus group discussions (FGDs)
- Software: MS Office (Word, Excel, PowerPoint), Canva (graphic design)

PROFESSIONAL EXPERIENCE

GIS and Remote Sensing Specialist (Full-time)

Mar 2026 – Present

ENC Eco Nature Consultancy | Hyderabad, Pakistan

- Leading GIS and remote sensing analysis for environmental and natural resource consultancy projects
- Applying satellite imagery interpretation, spatial analysis, and geospatial modeling to support client deliverables

Research Intern (Full-time)

Nov 2025 – Mar 2026

Sindh Forest Department, Miani | Hyderabad, Pakistan

- Supervised soil sampling and biomass estimation across the 24,000-acre Khipro Forest, collecting field data from 71 sampling points to establish a carbon stock baseline for the Sindh Forest Department
- Carried out a full enumeration of a 4 acre compartment in Miani Forest, recording tree level data and conducting biomass estimation for the plot
- Conducted a rangeland carrying capacity and soil nutrient assessment across 29 villages in Tharparkar for the UN FAO-funded SRAS project, coordinating 2 field teams to benchmark current conditions against a 2021 baseline
- Performed spatial interpolation of soil laboratory results and facilitated FGDs to map nutrient trends and evaluate ecosystem productivity
- Measured vegetation cover and rangeland carrying capacity using Laser Geo Vertex equipment, and synthesized findings into a formal technical report for regional policy use
- Assisted in developing a preliminary framework for carbon credit assessment and sustainability initiatives

Field Enumerator (Contract, 1 month)

Jan 2026

GIS Plus Total Solutions (Pvt.) Ltd. | Sindh, Pakistan

- Engaged on the UNOPS-funded Forest, Climate and Nature in Pakistan project as part of the Sindh Field Inventory team
- Conducted structured field data collection and survey activities across designated forest inventory sites

- Completed contract with a satisfactory performance rating, certified by GIS Plus Total Solutions

GIS & Remote Sensing Research Assistant (Part-time)

Jan 2023 – Jan 2026

University of Sindh | Jamshoro, Pakistan

- Provided ongoing technical GIS support and spatial data analysis across multiple academic research projects to strengthen research methodologies
- Developed high-quality thematic maps and spatial datasets using ArcGIS Pro and QGIS
- Conducted statistical analysis and data interpretation to verify environmental research findings
- Translated geospatial results into clear summaries supporting scientific reports and research papers

EDUCATION

BS Environmental Sciences

Graduated: March 2026

University of Sindh, Jamshoro | Pakistan | CGPA: 2.93

Thesis: Assessment of MODIS MAIAC AOD Retrievals over a Complex Semi-Arid Region: Geometric Dependencies, Aerosol Typing, and Precipitation Trends

Intermediate (pre-engineering)

2019 – 2021

Govt. Boys Degree College, Qasimabad | Hyderabad, Pakistan | A Grade

CERTIFICATIONS

- Geographic Information Systems specialization (UC Davis)
- Geo-AI for Forest Carbon Loss Monitoring using Google Earth Engine (Askbeard Consultant)
- Forecasting with ETS, ARIMA, and Python (Coursera Instructor Network)
- Data Analysis with R Programming (Google)
- How to Write and Publish a Scientific Paper (Polytechnic Institute of Paris)
- Introduction to Process Safety and Risk Analysis (UC Davis)
- Introduction to OSHA: Safety Standards and Compliance (Coursera Instructor Network)

WORKSHOPS & TRAINING

- Carbon Accounting through RS/GIS and Biomass Estimation Using Allometric Equations (Feb 2026)
- Survey Demarcation of Forest Areas Using IT Tools, GIS/RS Techniques & Prosecution of Forest Offences (Mar 2026)

LANGUAGES

Sindhi, Urdu (Native) | English (Fluent)
